

# BALTTECHNIKA

19-21 OCTOBER 2022

LITHUANIA, Vilnius, LITEXPO

## INTERNATIONAL SPECIALISED EXHIBITION OF MANUFACTURING, INNOVATION AND ENGINEERING SOLUTIONS **BALTTECHNIKA 2022**

The focus of the exhibition is the engineering and technology industry, which includes advanced manufacturing solutions, products and innovations. The focus will be aimed on transport, mobility, renewables, sustainability and smart manufacturing solutions such as robotisation, digitisation and more.

The mission of the exhibition is to present the Lithuania's engineering and technology industry companies, their achievements and potential to specialists and the general public, to encourage the establishment of international cooperation between European business and research institutions, traditional industry, innovators and start-ups.

### MAIN VALUES OF PARTICIPATION IN THE EXHIBITION

Partner search

Introducing new products

Sharing innovative solutions
